PROFILE CHANNEL SERIES

TBD.ER48

48 DEGREE RECESSED PROFILE CHANNEL

A recessed mount directional channel suitable for architecturally detailed areas. It has a slim, low-profile design and tilts the light output, perfect for vertical shelves or undercabinets. This durable Anodized Aluminum Profile Channel not only adds a great finished appearance to your space, but also protects LED chips from dust, and provides superior thermal management for higher wattage LED strips, prolonging the overall lifetime of the lighting system. Patented diffusers maximize lumen output and beam distribution.
